WT 11-65: In the Matter of applications of AT&T Inc. and Deutsche Telekom AG for
consent to assign or Transfer Control of licenses and Authorizations

Dear Chairman Genachowski and Commissioners:

I am writing in support of the proposed T-Mobile and AT&T merger. As President and CEO of the California Asian Pacific Chamber of Commerce that represents the interest of over 500,000 Asian Pacific Islander owned business through the State, I understand the important benefits this merger will provide to large and small businesses in this region.

For businesses, the ability to jump on a broadband network from anywhere is now a necessity, not just an advantage. It is expected that business can be conducted from anywhere at any time, and the strength of a business's mobile broadband network is crucial to maintaining its competitive edge during these challenging times.

It is important that all businesses, large and small, are able to be flexible and mobile when conducting business wirelessly. By bringing T-Mobile and AT&T together, it would mean that the communications that are at the very core of success for all businesses will be more reliable, faster and more effective.

On behalf of all the members of the California Asian Pacific Chamber of Commerce, we encourage the Commission to approve the merger of T-Mobile and AT&T. Furthermore, while we understand and respect the need for the Commission to conduct a full review, we believe its prompt approval will help improve all California's businesses' ability to compete on a global scale.

Sincerely,

Pat Fong Kushida

President & CEO

California Asian Pacific Chamber of Commerce
